

41 FABRIC STORES

Modern Apparel Fabric Stores + Textile Companies (Wholesale + Retail)

I have created a list of retail + wholesale fabric stores that sell fashion fabrics. Many of the retail fabric stores sell wholesale. I have included fabric stores and textiles companies that have modern, ergonomic fabrics.

Their fabrics are:

- Sustainable
- Plant-based
- Ethical/ Fair Trade
- Certified

I have researched each company. They all care about selling modern apparel fabrics. They carry a lot of plant-based apparel fabrics and sustainable apparel fabrics.

I have included a brief info about who they are. The intros are in quotations because they are the introductions of their products from their websites. I wanted to include the intro of their fabric company to give you an idea of who they are and what they sell.

I have included the location of the company. I have included whether they ship worldwide. If I didn't include their shipping information it is because they did not state it on their website. They most-likely ship worldwide— most all of the fabric stores and textile companies listed do with the exception of a few.

"You never create change by fighting the existing. To change something, you build new models that make the old obsolete" Richard Buckminster Fuller At Lebensclothing, we like fabrics. Fabrics that not only look beautiful and feel good, but are also produced fairly and sustainably - from the

cotton field to the dyeing to the retailer. To guarantee you this, we have all our textiles certified according to GOTS standards (GOTS). A socially friendly processing, fair trade and fair prices for the producers are our top principles. This makes your individually manufactured pieces even more valuable.

But sustainability is not everything for us. It is just as important to us to provide you with the latest colors and qualities. That is why we are constantly developing our range. We get inspiration for this from various showrooms and trade fairs in Berlin. You can also find ideas for your sewing projects on our blog.” - Lebenskleidung

Meter Meter Fabric Store

<https://www.metermeter.dk/>

Location: (Online + Brick & Mortar) Skt. Pauls Kirkeplads 7 8000 Aarhus C, Denmark

(Worldwide Shipping)

“METERMETER is a modern fabric store with a special focus on quality and sustainability. Everything is hand-picked and carefully selected to be able to offer an exquisite collection of fabrics, patterns and accessories that ensure good sewing experiences and clothes that last a long time.

Our love for the sustainable perspective on sewing itself is expressed, among other things, by making demands so that the road from fiber to finished clothes has burdened the environment and people as little as possible. It is also about consuming right, and not consuming more than what one needs. That is why we always find the best qualities with a sense of the good style that never goes out of style. Then your home-made clothes can last a long time and be used again and again. The second can not actually pay off in the long run.” - Metermeter

Location: (Online) 9740 Cuyamaca St. Ste F Santee, CA 92071

(Worldwide Shipping)

“Located in sunny San Diego, California, the Organic Fabric Company was established by husband (Peter) and wife (Gabriela--a life-long fabric enthusiast and seamstress) to offer individuals high-quality, eco-friendly, sustainable fabric options without the confusion of sorting through pages of conventionally grown cotton products.

With over two decades of experience in sewing, designing clothing, baby items, and accessories, we have learned the ins and outs of all things fabric. Our little collection of fabric prints has grown over the years, and we decided to extend our curated collections on to you! Having a growing family of our own, we have come to learn the value of organic and chemical-free living, and seek to extend this to every aspect of our lives--especially textiles. We choose all of our fabric with love, thought, and the end consumer in mind. Each print we choose represents a piece of who

we are. We love our soft, beautiful, vibrant organic fabrics, and we are sure you will too! Together, let's change the textile industry--one yard at a time!" - Organic Fabric Company

Organic Textile Company

Location: (Online) Unit 4 Dyfi Ecopark, Machynlleth, United Kingdom
(Worldwide Shipping)

"We're based in the historical market town of Machynlleth in mid Wales, with the green hills, sheep, beautiful countryside and people. Machynlleth, or Mach as it's known locally, is on the far west edge of Wales, practically right in the middle. Our current premises are on the Dyfi Eco Park in a highly insulated unit with 110 solar panels on the roof. Dyfi Eco Park was an early adopter of sustainable energy sources 18 years ago.

Nancy runs the business and we currently employ six members of staff: Gwyn, Gráinne, Matt, Yvonne, Sarah and Colin. Nearly all of our fabrics are made directly for us and to our specification. Phil and Ann, with over thirty years of fabric selling under their belts, formed the Organic Textile Company in 2005 after becoming aware of the damage to the environment and third world communities growing cotton can do, relying heavily as it does on pesticides. They are still involved, although now enjoying the delights of being semi-retired."- Organic Textile Company

Samatoa Lotus Flower Fabric

<https://samatoa.lotus-flower-fabric.com>

Location: (Online) Their Lotus Farm: 9, Road 63 (Russei Luk), Phnom Krom, Siem Reap 17250, Cambodia

“Samatoa is an ecologically friendly company – one that uses only sustainable products and does not employ heavy metals or toxic chemicals in the manufacture of our fabrics and clothing. Samatoa is responsible for the manufacturing process of our fabrics and clothing from beginning to end – from yarn to finished product, with no intermediaries or outside providers. That is how we ensure that quality.

For over ten years, Samatoa’s team researched new textile resources, such as fibers from the lotus, kapok and banana plants. In so doing, we have also developed a fantastic team of expert spinners, weavers,

seamstresses and designers. Our innovative fabrics are 100% ecological, spun and woven by hand, following Cambodian traditional methods. This gives them texture and unique properties available nowhere else on the planet, but which are now in demand around the world.” - Samatoa

Sara Parker Textiles

<https://www.saraparkertextiles.com>

Location: (Online) Athens, GA
(Worldwide Shipping)

“Sara Parker Textiles creates hand screenprinted fabrics for makers and the trade. Each screen is printed in-house on a variety of ethically sourced base cloths. The design process begins with a sketch by Sara that eventually becomes a repeat pattern through the story it wishes to tell: sometimes with color pencils, paper stencils, or pen and ink.

A concoction of improvisation, craft and authenticity, Sara Parker Textiles are fabrics with a sense of spirit and a nod to the natural world. Ethical production and mindset are the heart of our operation. That's why we source organic and ethically-milled base cloths, and try our best to put to use every scrap of fabric. ” - Sara Parker Textiles

Sierra Sewing Supply

<https://www.sierrasewingsupply.com>

Location: (Online)

(Worldwide Shipping)

“We are a sewing supply store that focuses on providing modern apparel sewists with high-quality, eco-conscious, beautiful fabrics, notions and patterns. We invite you to take a second to visualize your next project and let the creativity flow! Our goal is to provide you with quality materials to help make your vision come alive.

Research has shown that synthetic textiles not only take longer to break down in landfills, but also contribute to microplastics in the water supply (from washing). For these reasons, we focus our efforts on finding fabrics with mostly natural fibers and a minimal amount of synthetics. We love cotton, linen, soy, bamboo, lyocell, modal, and cupro. Some items will have some spandex for stretch, but there is absolutely no polyester here (even recycled)! We do acknowledge that some projects are better when made with poly, but there are plenty of stores out there that already provide those kinds of fabrics.” - Sierra Sewing Supply

- Our fabrics use the same luxurious fibers which have been used for centuries in fine textiles (with a few modern additions): cotton, linen, silk, hemp, bamboo, abaca.
- Our fabrics are woven to the same standards as conventional textiles.
- Our fabrics pass the same performance tests and
- they’re dyed a beautiful palette of sophisticated colors.

They look like other fine fabrics on the market. That’s what sets them apart.”
